Functionality

Pick MVP from this, if there is time, then we add features.

We have
      1. visitors
      2, members
      3. organizations
      4. flyerz

/**members**/:userid/what/ever	does require the user :userid to be **logged in**
/admin	Django admin, requires the Django admin login
/what/ever	does not require one to be logged in, everyone can see this
/users	Public search for users (??)
/users/:userid	Public profile of :userid
/organization	Public search for tags that lead to organizations
/organization/:orgid	Public organization profile of :orgid
/**members**/:userid/what/ever	Things only **logged in** member :userid can do
/**members**/:userid/:orgid/what/ever	Things **logged in** :userid can do with their :orgid
/flyerz/:entityid	Public flyer profile
/**members**/:userid/:orgid/:flyerzid/w/e	Things **logged in** :userid can do with its :flyzerid
